

Attachment B-2 to Exhibit B

Hughes Network Systems, LLC

EAU 7

Effective Date: 9/1/2024

Contract DIR-TELE-CTSA-007

Hughes Sunset/Grandfathered and End-of-Life (EOL) Services

NOTE TO CUSTOMER: Services listed below still in place at time of removal from contract

or effective Sunset date, whichever is later, may incur higher rates for the remainder of use.

Services listed here are noted in red underlined throughout Exhibit B-2. Please plan accordingly.

Legacy Hughes Sunset/Grandfathered and End-of-Life (EOL) Services

The following list of products are being removed from Vendor's catalog of services

Product	Pricing Section	Grandfather Date	Estimated Sunset/EOL
<u>HN/HX</u>	<u>Data Pricing</u>	<u>6/1/2024</u>	<u>6/1/2024</u>

Definitions:

Grandfathered	No new sales. Restricted to existing customers only. No renewals & no MAC orders; Disconnects only.
----------------------	---

Sunset/EOL	Represents the effective date when service is officially withdrawn from offer to ALL customers; this date is communicated in customer letters and represents the target date to have ZERO customers remaining in-service.
-------------------	---

Pricing Notes:

- 1.** Pricing does not include any taxes or government applicable fees
- 2.** Pricing is based on the specified service term per site (Site Service Term).
- 3.** Customer acknowledges that an underlying carrier may discontinue service after installation. In such event, Hughes will provide customer notice and the opportunity to select an alternative service from the table above, if available. If no alternative service is available, Customer may terminate the service at affected sites with thirty (30) day notice without penalty.
- 4.** Customer acknowledges that services are based on availability and Hughes cannot guarantee that any given wireline/wireless service is available for a site, regardless of prequalification results. In the event that the prequalified service is not available at any site, Customer may select a different broadband service.
- 5.** There may be additional installation costs, such as additional inside wiring charges, jacks, filters, etc., which may be assessed by the applicable telecom or cable companies (ISP). A site survey will be performed by the ISP and Hughes will notify the Customer of buildout charges that may apply as other direct costs. Hughes will only proceed after receiving permission from the Customer .
- 6.** Pricing assumes that inside wiring between the location where the wireline circuit enters the building and the Customer office where the modem is located is already in place. Consequently, no inside wiring costs are included in the pricing listed above. If such inside wiring is required, additional charges will apply.
- 7.** When Hughes places an order for a wireline circuit with an underlying carrier, the order is placed for a circuit with a particular service plan based on speed. Those speeds are based on what is anticipated to be the rate at which the modem will synchronize with the circuit. The speeds are “up to” speeds, as the modem may sync at a lower speed due to line conditions. Consequently, circuit speeds are not guaranteed. Additionally, for traffic carried within a secure tunnel across the circuit, the effective throughput will be reduced due to the packet and encryption overhead. The performance experienced by a user will also vary depending on potential areas of congestion within the general Internet, server loading, and application specific performance.
- 8.** Customer acknowledges that Hughes’ suppliers require a minimum site service term, as identified in the table below, to receive the pricing set forth in this price schedule. Customer will be responsible for the following early termination charges not to exceed those listed below in the event that Customer terminates for convenience.

Circuit Type	Early Termination Charges
ADSL, IDSL	Up to \$150 per terminated site (waived after site completes 12 months of service)
Dedicated DSL	\$99 (waived after site completes 24 months of service)
Cable (Charter/Time Warner/Spectrum)	100% of remaining charges (waived after site completes 12 months of service)
Cable (Cox)	\$100 per terminated site (waived after site completes 36 months of service)
Cable (Comcast/Suddenlink/Mediacom)	100% of remaining service charges (waived after site completes 36 months of service)
Cable (Optimum/Rogers)	\$50 (waived after site completes 36 months of service)
Cellular Wireless	\$200 per terminated site (waived after site completes 12 months of service)
FiOS	\$320 per terminated site
FTTI, Bell Canada Bell Fibe	\$50 per terminated site
Granite Grid, Spectrum Fiber	100% of remainder of service charges

U-Verse/IPBB	\$199 per terminated site (waived after site completes 36 months of service)
Asymmetric/Symmetric Ethernet	100% of remainder of service charges, plus Customer is responsible to return the underlying provider's equipment. Upon ordering decommissioning of an Asymmetric Ethernet site, either Hughes or the provider will send Customer a postage prepaid label and box to be used for
Fixed Wireless	100% of remainder of service charges for first 12 months (if terminated in first 12 months), plus 45% of remaining service charges for months 13-36. In

9. If a technician is dispatched to fix a reported problem at a site, and it is determined that the problem is not related to the broadband circuit, a \$250 site visit charge applies for each visit if multiple visits are required. Customer shall provide to Hughes a monthly report of dispatches authorized by Customer. If a Provider technician must go to site, there will be a Time and Material (T&M) charge.

10. Time and Material (T&M) charges also apply to Hughes site visits, including but not limited to:

- For out of scope items such as Customer damage to the equipment, force majeure, or disconnected cables.
- The T&M charge is the sum of the “Hourly Rate” plus the “Travel Zone Charge” shown below. The Travel Zone Charge is charged for each direction of travel. Material is charged at cost plus 20%.

<i>Time Work is Performed</i>	<i>Hourly Rate</i>
<i>Normal Hours (8:00 AM – 5:00 PM, Monday through Friday)</i>	<i>\$125/hour</i>
<i>After Hours Weekday (5:00 PM – 8:00 AM, Monday through Thursday)</i>	<i>\$150/hour</i>
<i>Weekend (5:00 PM Friday – 8:00 AM Monday)</i>	<i>\$150/hour</i>

Distance	Travel Zone Charge
0 – 25 miles	\$77
26 – 50 miles	\$143
51 – 100 miles	\$286
101+ miles	\$473

11. Pricing does not include Backhuls and associated terminating equipment. It assumes that Customer will provide that.

12. All OCONUS Satellite survey and installation are ICB, excluded from quoted price for each site. Site survey is required to provide accurate price for survey and installation.

13. For VSAT sites (if any), site installation price is based on standard installation. For any site for which a complex installation is identified, a separate incremental complex installation quote will be provided to the Customer . This charge will be added on top of the standard installation charge.

14. 4G xxMbps/xxGB service plans offer flat rate 4G service without overage charge. Throttling starts when plan threshold is exceeded. Service plan subject to coverage availability. Service has restriction on video/audio streaming, surveillance and Wi-Fi support.

15. For broadband Locations identified by Hughes as requiring a site survey, Hughes will perform a site survey to identify technically-suitable Locations for installing the Equipment and cables. Hughes works with its providers to negotiate construction cost waivers whenever possible, in consideration of a longer-term commitment (typically 36 months per site). If a site survey shows that no cable construction costs are required, and Customer elects to not proceed with the cable installation, HNS will charge the Customer \$250 per site survey performed. For Locations not receiving a cable construction waiver, if a site survey shows that cable construction costs are required, and Customer elects to not proceed with the cable installation, no site survey charge will apply.

16. Following charges apply to all services installed in an enclosed shopping mall or Multi Story Building.

Site Survey and Report	\$350/each	All Services in an enclosed shopping mall or Multi Story Building
Mall and multi-story building installation surcharge	\$300/each	All Services in an enclosed shopping mall or Multi Story Building

17. Customer acknowledges that HNS' underlying circuit providers have reserved the right to determine their service areas, and the right to maintain, reconfigure, adjust pricing or discontinue any service and/or product. In the event that HNS's suppliers make any such changes that prohibit HNS from continuing to provide circuits or to provide circuits at previous price levels, HNS will provide Customer a new quote for the affected circuit.

18. Pricing is valid for 90 days

Site survey			\$335.72	Site survey to determine the time and materials to install HughesNet equipment. Quotation provided from results of survey.	
Standard Fixed VSAT Installation : 98/120			\$863.27	Standard Fixed HughesNet equipment Installation for sites requiring .98 and 1.2 meter antenna systems in the lower 48 states.	
Standard Fixed VSAT De-installation : 98/120			\$457.03	Standard Fixed HughesNet equipment De installation for sites requiring .98 and 1.2 meter antenna systems in the lower 48 states.	
Re-install .98m/1.2m antenna			\$812.02	Standard Fixed VSAT Re-installation .98m/1.2m	
Standard Fixed VSAT Site Relocation/Move - Local : 98/120			\$1,269.52	Standard Fixed HughesNet equipment site move for .98 and 1.2 meter antenna systems and within same city or up to 100 miles between the existing and new site in the lower 48 states.	
Standard Fixed VSAT Site Relocation/Move - Non-local : 98/120			\$1,523.42	Standard Fixed HughesNet equipment site move for .98 and 1.2 meter antenna systems where by the existing and new HughesNet equipment sites are more than 100 miles apart in the lower 48 states.	
Incremental charge for customer requested/required pole mount up to 10 feet for VSAT: 0.98m or 1.2 m			\$364.49	Incremental charge for customer requested/required pole mount with height up to 10 feet. Cable run from antenna to indoor unit up to 150 feet with no trenching or excavation.	

Plan Name/Title	MRC	MRC Description	NRC	NRC Description	Term
Incremental charge for customer requested/required pole mount with height 11-15 feet for VSAT: 0.98 m or 1.2 m			\$537.15	Incremental charge for customer requested/required pole mount with height 11 – 15 feet. Cable run from antenna to indoor unit up to 150 feet with no trenching or excavation.	
Re-pointing/Re-cross-polarization of VSAT antenna			\$335.72	Charge to repoint/repolarize the antenna at the same customer location	
Move indoor electronics - VSAT			\$335.72	same point of entry and cable will be used	
Move indoor electronics - VSAT			\$383.68	new point of entry and cable is required	
Upgrade indoor electronics or outdoor electronics - VSAT			\$335.72	Does not include hardware	
Upgrade indoor electronics and outdoor electronics - VSAT			\$383.68	Does not include hardware	
Aborted or Cancelled Installation: VSAT			\$287.76	This charge only applies in cases where the installation has been cancelled by Customer within seven (7) days of the scheduled installation.	
Dedicated twisted pair line install extra cost > 100'			\$1.20	Additional Cat 5 data cable installed > 100'	
Service Plan Change (Upgrade/Downgrade) Fee			\$335.72	Charge to change from one service plan to another. Requires technician visit to customer's location to de-commission the old service plan and re-commission the new service plan.	
Miscellaneous support services			\$167.85	Including but not limited to obtain permits and approvals, provision of specially required additional or special documentation, attendance at meeting before local planning or zoning boards, etc.	

Plan Name/Title	MRC	MRC Description	NRC	NRC Description	Term
Miscellaneous support services			\$167.85	Hourly charge. Including but not limited to obtain permits and approvals, provision of specially required additional or special documentation, attendance at meeting before local planning or zoning boards, etc.	
Training			\$4,767.54	1 Day of On-site Gen5/Flyaway Training Labor.
